

NATYVA SOUL-FUSION SWITZERLAND

Just as music isn't about the goal, but the road, NATYVA's musical journey is on-going, and they wish you to be a part of it. NATYVA are a group from Switzerland, but of international background and mindset. Their genre is eclectic, ranging from pop, funk, soul and latino, with some touches of jazz and afro influences. Together, they create a multicultural music universe with warm and raw sounds, which capture traveling experiences and

roots. Their lyrics are mainly in English and Spanish, which are sung, rapped, and sometimes chanted together with you.

Their goal is always to share the best experience with their audience; to involve, immerse and connect with you. Be it by making you dance, making you move, or simply by making you smile from your seats, it is always a joy for them to play for those who listen.

Their first EP "FR/AGILE" was released in October 2020, which can be listened to [here](#). With their EP « **CO/RAZÓN** » they released their first EP as a full band in March 2022.

CONNECT WITH US

CO/RAZÓN

Lover, parent, sibling, child...

Different roles conjure various needs and virtues, which always relate to the head & the heart. Sometimes, they fight for space within us. Sometimes, they complement each other. Sometimes, we suppress one to listen to the other. Our understanding of them is ambivalent and continues to be over the course of our lives as we evolve and change roles.

Following our debut EP FR/AGILE from October 2020, we have come together to create CO/RAZÓN, our upcoming five-titled EP, which was released in March 2022. It evokes the struggle and the duality between reason and emotions under different circumstances. The sounds of the track are raw, harmonious but ambivalent, just as we are as human beings. Thanks to a competition won at REC4YOU, a part of the album has been produced in collaboration with Romain Equey (sound engineer at ro_sound studio) in Vevey.

Written, arranged and produced by **NATYVA**
Recorded by **Romain Equey (ro_sound)** and **NATYVA**
Mixing & mastering: **Yann Tekadiozaya**

Label: **independent**
Distribution: **independent**
EP release party: **Centre Fries, Fribourg, 19.03.2022**
